18 years of experience as a Sculptor and Art Fabricator; Sculpting, Fabricating, Designing and Project Management for myself, as well as other Artists and Institutions such as: Louise Bourgeois, Paul McCarthy, Yoshitomo Nara, Richard Jackson, Richard Prince, Bjarne Melgaard, Alex Hubbard, Brooklyn Academy of Music, Gaumard Scientific, Mezco Toys, Plan B Toys.

Employment

Croscon Engineering

Junior Software Engineer
New York, NY
Jul 2015 to Aug 2016
Partnered with Senior Engineers to implement full-stack solutions for a diverse group of clients. Built new features, diagnosed and fixed bugs, and implemented product re-designs utilizing technologies such as: Javascript and modern JS libraries (ES6, Backbone, React, Flux (Marty, Redux)), Gulp, Webpack, CSS (SCSS, LESS, CSS3), PHP, Python, custom CMS, Vagrant, Docker, MongoDB, MySQL.

Clients included:

- Supreme Committee for Delivery and Legacy (Qatar) - Qatar 2022
- Glade/Radical Media - The Museum of Feelings
- Sterling Risk - Gem Safe
- Ocean Health Index - OHI

In house proprietary products:

- MyCourt - Ticketing and time-tracking application
- Groowm - Customizable CMS

Web Thriftstore

Freelance Web Developer

New York, NY
Apr 2015 to Jun 2015

Built new features and implemented solutions in existing codebase across the entire stack (from css to the database) of the e-comm startup site, which consists of an AngularJS front end, and a Node/Express back end connecting to a mysql database.

Web Thriftstore

Projects

Crullian.io

Personal portfolio website.

VinylCache

Personal record collection online with full create, read, update, and delete functionality.

EmergencyDJ

Browser based DJ platform using youtube api.

CodeStream

- Real-time instructional coding application with live updates from instructors and commenting and participation from students. <https://github.com/heatherpike/codestream>
- Works in conjunction with the Codestream Command Line Interface and built-in Sublime plugin, designed for instructor use: <https://github.com/Rmoore424/Codestream-cli>
- Built with MEAN stack (using FullStack Generator), Github API, Node-Git, Sublime Text API

Education

Fullstack Academy of Code

Certificate Software Engineering Immersive 2015

General Assembly

Intro to NodeJS Workshop 2014
Intro to Javascript workshop 2014
Ruby on Rails workshop 2013
